## Facilities

Design Avant's head office and main production facility are located in Surabaya Indonesia with a secondary design and logistics office in Singapore.

Project management can be handled from both Surabaya and Singapore and the management team are capable of all types of project management from general contractor through to specialty services.

Our three factory spaces currently span over 15,000 square metres and house more than 250 full-time and 400 part-time employees.

The production team consists of a group of highly skilled craftsmen able to translate your vision into viable prototypes that are ready for production. We understand that a project or piece of furniture doesn't always turn out the way it looked in your head so we offer a cost-effective prototyping and sample making service to assist you to realise your true vision.

Design Avant's skilled workforce are capable of exceptional hand-made craftsmanship and fast installation while being readily supported by a variety of highly advanced computer controlled machinery.
